Walter and Mike,  
Per Amy's request below, may I ask you to share the attached spreadsheet with appropriate folks on your immediate staff and just ensure that the information applicable to your respective bureaus is correct. Thanks.

Rich

All:

Attached is the compilation for the national monuments data call, as well as notes from Christina on some verifications and adjustments. Could you (or your bureaus) please review and let us know if you have edits or questions. Thank you again for your help with this!

- Updated proclamation vs. Antiquities Act; researched and included additional designation categories for clarity
- Notated DOI and non-DOI land
- Reconciled duplicates with conflicting data points (such as differing acreage and locations)
- Converted square mileage references to acreage for consistency and for analysis
- Cleaned up references to National Parks versus National Monuments (a number of National Monuments were transferred/merged into National Parks); added notes to clarify
- Added additional columns to capture notes, and capture changes in National Monument size
- Revised "Synopsis of Values" as needed for brevity

--

|          |               | African Burial Ground National Monument                      | New York        | New York                    | 2006             | Antiquities Act  | 0.35  |                              |                                | Proclamation 7984 February 27 2006: In Lower Manhattan at the corners of Duane and Elk Streets lies an undeveloped parcel of approximately 15 000 square feet that constitutes a remaining portion of New York City's early African Burial Ground. The site is part of an approximately 7-acre National Historic Landmark established on April 19 1993. From the 1690s to the 1790s the African Burial Ground served as the final resting place of enslaved and free Africans in New York City. It contains the remains of those interred as well as the archeological resources and artifacts associated with their burials. Prior to the date of this proclamation the site was administered by the General Services Administration (GSA) and it will be the location of a memorial to be constructed soon according to a design selected on April 29 2005 through a competition conducted by the GSA with the participation of the National Park Service (NPS) and other interested parties. The African Burial Ground National Monument will promote understanding of related resources encourage continuing research and present interpretive opportunities and programs for visitors to better understand and honor the culture and vital contributions of generations of Africans and Americans of African descent to our Nation; |       |
|          | NPS           | Agate Fossil Beds  | Nebraska        | Harrison                    | 1965             | Congress   | 2 730.08  |                              |                                | Established to preserve for the benefit and enjoyment of present and future generations the outstanding paleontological sites known as the Agate Springs Fossil Quarries and nearby related geological phenomena to provide for continuing paleontological research and for the display and interpretation of the scientific specimens uncovered at such sites and to facilitate the protection and exhibition of a valuable collection of Indian artifacts and relics that are representative of an important phase of Indian history.  |       |
|          |               | Agua Fria National Monument                                  | Arizona         |                             | 2000             | Antiquities Act  | 71 100.00   |                              |                                | The windswept, grassy mesas and formidable canyons of Agua Fria National Monument embrace an extraordinary array of scientific and historic resources. The ancient ruins within the monument with their breathtaking vistas and spectacular petroglyphs provide a link to the past offering insights into the lives of the peoples who once inhabited this part of the desert Southwest. The area's architectural features and artifacts are tangible objects that can help researchers reconstruct the human past. Such objects and more importantly the spatial relationships among them provide outstanding opportunities for archeologists to study the way humans interacted with one another neighboring groups and with the environment that sustained them in prehistoric times.   |       |

Transferred to NPS in 1933. "WHEREAS certain prehistoric aboriginal ruins situated upon public lands of the United States within the Santa Fe National Forest in the State of New Mexico are of unusual ethnologic scientific and educational interest and it appears that the public interests would be promoted by preserving these relics of a vanished people with as much land as may be necessary for the proper protection hereof as a National Monument"  |       |
|          |               | Basin and Range National Monument                            | Nevada          | Ely                         | 2015             | Antiquities Act  | 703 585.00  |                              |                                | July 1 2015: The Basin and Range area of southeastern Nevada is an iconic American landscape. The area is one of the most undisturbed corners of the broader Great Basin region which extends from the Sierra Nevada Mountains in the west to the Colorado Plateau in the east. The pattern of basin fault and range that characterizes this region creates a dramatic topography that has inspired inhabitants for thousands of years. The vast rugged landscape redefines our notions of distance and space and brings into sharp focus the will and resolve of the people who have lived here. The unbroken expanse is an invaluable treasure for our Nation and will continue to serve as an irreplaceable resource for archeologists historians and ecologists for generations to come.   |       |

|  | NPS                     | Birmingham Civil Rights National Monument       | Alabama        | Birmingham                           | 1910 | Antiquities Act | 5.00         | 655.61       |  | In 1963 Birmingham was the epicenter of the American Civil Rights Movement. Activists like Rev. Dr. Martin Luther King Jr., Rev. Fred Shuttlesworth, Rev. Ralph Abernathy Sr., and countless unnamed heroes gathered there to demand equality for all people. The activists planned the nonviolent marches and protests of the Project C (for Confrontation) or Birmingham campaign. When Dr. King was jailed for participating in marches through Birmingham, he wrote the famous April 16, 1963 Letter from a Birmingham Jail, declaring, "I am in Birmingham because injustice is here." The events that took place in Birmingham in 1963 became a galvanizing force for the passage of the Civil Rights Act of 1964. The Birmingham Civil Rights National Monument includes the A.G. Gaston Motel, the headquarters for Project C, where Dr. King and Rev. Abernathy and Shuttlesworth stayed and held strategy sessions and meetings during the Birmingham campaign. They also staged marches, were served a subpoena, and held press conferences on the premises. Dr. King and his colleagues announced the negotiated resolution of the campaign in the motel courtyard on May 10, 1963. Hours later, a bomb exploded near the suite where Dr. King had stayed. |  |
|  | NPS                     | Biscayne National Park                          | Florida        | Homestead                            | 1968 | Congress        | 96 300.00    | 172 971.00   |  | Established as Biscayne NM in 1968 and redesignated Biscayne National Park in 1980. Established "in order to preserve and protect for the education, inspiration, recreation, and enjoyment of present and future generations a rare combination of terrestrial, marine, and amphibious life in a tropical setting of great natural beauty. There is hereby established the Biscayne National Park."   |  |

"The Secretary of the Interior shall have the supervision, management, and control of such national monument, and shall maintain and preserve it in a suitable and enduring manner which, in his judgment, will provide for the benefit and enjoyment of the people of the United States."   |  |
|  | BLM & US Forest Service | Bryce Canyon National Monument                  | Utah           | Bryce                                | 1923 | Antiquities Act | 21 586.00    |              |  | February 19, 2015: In central Colorado's vibrant upper Arkansas River valley, the rugged granite cliffs, colorful rock outcroppings, and stunning mountain vistas of Browns Canyon form an iconic landscape that attracts visitors from around the world. The landscape's canyons, rivers, and backcountry forests have provided a home for humans for over 10,000 years, and the cultural and historical resources found in this landscape are a testament to the area's Native Peoples as well as the history of more recent settlers and mining communities. The area's unusual geology and roughly 3,000-foot range in elevation support a diversity of plants and wildlife, including a significant herd of bighorn sheep. Browns Canyon harbors a wealth of scientifically significant geological, ecological, riparian, cultural, and historic resources and is an important area for studies of paleoecology, mineralogy, archaeology, and climate change.   |  |

| BLM   | California Coastal National Monument      | California | Marina        | 2000/2014/2017 | Antiquities Act       | 3 937.00   |            |  | Proclamation 7264 January 11 2000: The islands rocks and pinnacles of the California Coastal National Monument overwhelm the viewer as white-capped waves crash into the vertical cliffs or deeply crevassed surge channels and frothy water empties back into the ocean. Amidst that beauty lies irreplaceable scientific values vital to protecting the fragile ecosystems of the California coastline. At land's end the islands rocks exposed reefs and pinnacles off the coast above mean high tide provide havens for significant populations of sea mammals and birds. They are part of a narrow and important flight lane in the Pacific Flyway providing essential habitat for feeding perching nesting and shelter. The California Coastal National Monument is a biological treasure.  |
| Canyon de Chelly National Monument  |   |            |               |                |                       |            |            |  |   |
| NPS   | Canyon de Chelly National Monument        | Arizona    | Apache County | 1931           | Congress/Proclamation | 83 840.00  | 83 840.00  |  | A land Indian trust land. Authorized by Congress and established through proclamation. "WHEREAS it appears that the public interest would be promoted by including the lands hereinafter described within a national monument for the preservation of a great number of cliff dwellings and for their archaeological interest."   |
| BLM   | Canyons of the Ancients National Monument | Colorado   | Dolores       | 2000           | Antiquities Act       | 175 160.00 |            |  | June 9 2000: Containing the highest known density of archaeological sites in the Nation, the Canyons of the Ancients National Monument holds evidence of cultures and traditions spanning thousands of years. This area with its intertwined natural and cultural resources is a rugged landscape a quality that greatly contributes to the protection of its scientific and historic objects. The monument offers an unparalleled opportunity to observe study and experience how cultures lived and adapted over time in the American Southwest.  |
| Cape Krusenstern National Monument  |   |            |               |                |                       |            |            |  |   |
| NPS   | Cape Krusenstern National Monument        | Alaska     | Kotzebue      | 1978           | Antiquities Act       | 560 000.00 | 627 190.67 |  | Proclamation 4615 December 1 1978: The area of northwest Alaska known as Cape Krusenstern contains an archaeological record of great significance. The Cape's bluffs and its series of one hundred fourteen horizontal beach ridges hold an archaeological record of every major cultural period associated with habitation of the Alaska coastline in the last 5000 years. The unglaciated lands lying inland including the Kakagruk Hills the Rabbit Creek area and others have an older archaeological record dating back to pre-Eskimo periods of at least 8000 years ago. This continuum of evidence is of great historic and scientific importance in the study of human survival and cultural evolution. There are in this area examples of other unique natural processes. The climatological conditions are conducive to the formation of Naleo, one spectacular example of which occurs in the area. In the same inland area at Klikimak Creek is found the only known Alaskan example of a still recognizable Illinoisian glacial esker a formation which is over 100 000 years old. The unique geologic process of erosion and sediment transport in this area created and continues to create the beach ridges in which is preserved the archaeological record of the beach civilizations. Also found in the area is a wide variety of plant and animal species from the marine life along the shoreline and its lagoons to the inland populations such as musk-oxen Dall sheep caribou and many smaller species.  |
| NPS   | Capitol Reef National Park                | Utah       | Torrey        | 1937           | Antiquities Act       | 37 060.00  | 241 234.29 |  | Established as NM and redesignated as NP in 1971 through 92nd Congress. No. 2246 -- Aug. 2 1937 -- 50 Stat. 1856: Whereas certain public lands in the State of Utah contain narrow canyons displaying evidence of ancient sand dune deposits of unusual scientific value and have situated thereon various other objects of geological and scientific interest; and Whereas it appears that it would be in the public interest to reserve such lands as a national monument to be known as the Capitol Reef National Monument:  |
| Capulin Volcano National Monument   |   |            |               |                |                       |            |            |  |   |
| NPS   | Capulin Volcano National Monument         | New Mexico | Capulin       | 1916           | Antiquities Act       | 640.42     | 792.84     |  | Established as Capulin Mountain NM then redesignated as Capulin Volcano NM in 1987. "WHEREAS Capulin Mountain located in Townships twenty-nine and thirty North Range twenty-eight East of the New Mexico Principal Meridian, New Mexico is a striking example of recent extinct volcanoes and is of great scientific and especially geologic interest."  |
| NPS   | Carlsbad Caverns National Park            | New Mexico | Carlsbad      | 1923           | Antiquities Act       | 719.22     | 46 427.26  |  | Established as Carlsbad Cave NM and redesignated a NP through the 71st Congress. Established to protect "a limestone cavern known as the Carlsbad Cave of extraordinary proportions and of unusual beauty and variety of natural decoration; and WHEREAS beyond the spacious chambers that have been explored other vast chambers of unknown character and dimensions exist; and WHEREAS the several chambers contain stalactites stalagmites and other formations in such unusual number size beauty of form and variety of figure as to make this a cavern equal if not superior in both scientific and popular interest to the better known caves."  |
| Carrizo Plain National Monument   |   |            |               |                |                       |            |            |  |   |
| BLM   | Carrizo Plain National Monument           | California | Bakersfield   | 2001           | Antiquities Act       | 204 107.00 |            |  | Proclamation 7393 January 17 2001: Full of natural splendor and rich in human history the majestic grasslands and stark ridges in the Carrizo Plain National Monument contain exceptional objects of scientific and historic interest. Since the mid-1800s large portions of the grasslands that once spanned the entire four hundred mile expanse of California's nearby San Joaquin Valley and other valleys in the vicinity have been eliminated by extensive land conversion to agricultural industrial and urban land uses. The Carrizo Plain National Monument which is dramatically bisected by the San Andreas Fault zone is the largest undeveloped remnant of this ecosystem providing crucial habitat for the long-term conservation of the many endemic plant and animal species that still inhabit the area.   |
| NPS   | Casa Grande National Monument             | Arizona    | Coolidge      | 1918           | Antiquities Act       | 480.00     | 472.50     |  | Casa Grande Ruins Reservation was set aside by President Benjamin Harrison on June 22 1892 to protect the "Casa Grande" or Great House a multistoried earthen-walled structure surrounded by the remains of stone buildings and a compound wall. The Great House was constructed by the Hohokam people who farmed the Gila Valley of south-central Arizona from ca. AD 300-1450. Casa Grande Ruins Reservation was both the first prehistoric site and the first cultural site to be set aside by the United States government. The site became a national monument on August 3 1918 under the authority of the Antiquities Act and was transferred to the National Park Service on that date.  |
| BLM/Bureau of Reclamation (USR)   | Cascade-Siskiyou National Monument        | Oregon     | Medford       | 2000/2017      | Antiquities Act       | 52 000.00  | 100 000    |  | Proclamation 7318 9 June 2000: With towering fir forests sunlit oak groves wildflower-strewn meadows and steep canyons the Cascade-Siskiyou National Monument is an ecological wonder with biological diversity unmatched in the Cascade Range. This rich enclave of natural resources is a biological crossroads—the interface of the Cascade Klamath and Siskiyou ecoregions in an area of unique geology biology climate and topography. The monument is home to a spectacular variety of rare and beautiful species of plants and animals whose survival in this region depends upon its continued ecological integrity.<br>Proclamation 7318 (revision) 2017: hereby proclaim the objects identified above that are situated upon lands and interests in lands owned or controlled by the Federal Government to be part of the Cascade Siskiyou National Monument and for the purpose of protecting those objects reserve as part thereof all lands and interests in lands owned or controlled by the Federal Government within the boundaries described on the accompanying map which is attached hereto and forms a part of this proclamation. These reserved Federal lands and interests in lands encompass approximately 48 000 acres. The boundaries described on the accompanying map are confined to the smallest area compatible with the proper care and management of the objects to be protected. Nothing in this proclamation shall change the management of the areas protected under Proclamation 7318. Terms used in this proclamation shall have the same meaning as those defined in Proclamation 7318. |

Marion NM in 1924 transferred to NPS in 1933 and redesignated Castillo San Marcos NM in 1942. "AND WHEREAS by section 2 of the Act of Congress approved June 8 1906 (34 Stat. 225) the President is authorized "in his discretion to declare by public proclamation historic landmarks, historic and prehistoric structures, and other objects of historic or scientific interest that are situated upon the lands owned or controlled by the Government of the United States to be National monuments and may reserve as a part thereof parcels of land the limits of which in all cases shall be confined to the smallest area compatible with the proper care and management of the objects to be protected"   |  |  |  |  |
| NPS | Castle Clinton National Monument                   | New York                       | New York       | 1946 | Congress        | 1.00      |           |  |  | Authorized in 1946 and established in 1950 when land was ceded to Federal Government. War of 1812 Memorial. "It is enacted by the Senate and House of Representatives of the United States of America in Congress assembled That the Secretary of the Interior is authorized to accept on behalf of the United States title to the site comprising approximately one acre and situated in Battery Park, New York City, of the historic structure known as Castle Clinton together with such structure and any other improvement or appurtenant to such site."  |  |  |  |  |
| NPS | Castle Mountains National Monument                 | California                     | Barstow        | 2016 | Antiquities Act | 20 920.00 | 20 902.00 |  |  | February 12 2016: The Castle Mountains area bounded on three sides by Mojave National Preserve (Preserve) possesses outstanding natural, cultural, and historical values representing some of the finest characteristics of the eastern Mojave Desert. It connects water flow and wildlife corridors of the Preserve and completes the boundary of the Preserve along the California-Nevada border. Beneath the shadow of Hart Peak lie rich cultural and historic resources, including Native American archaeological sites and the historic gold mining ghost town of Hart. Exposed geologic features contribute to the area's outstanding scenery. Shaped by millions of years of geologic forces, the rugged Castle Mountains are emblematic of the Mojave landscape.  |  |  |  |  |
| Yes | Abolished (Now with SC Park)                       | Castle Pinckney                | South Carolina | 1924 | Antiquities Act | 3.50      |           |  |  | transferred to SC through 84th Congress. "AND WHEREAS by section 2 of the Act of Congress approved June 8 1906 (34 Stat. 225) the President is authorized "in his discretion to declare by public proclamation historic landmarks, historic and prehistoric structures, and other objects of historic or scientific interest that are situated upon the lands owned or controlled by the Government of the United States to be national monuments and may reserve as a part thereof parcels of land the limits of which in all cases shall be confined to the smallest area compatible with the proper care and management of the objects to be protected"   |  |  |  |  |
| NPS | Cedar Breaks National Monument                     | Utah                           | Cedar City     | 1933 | Antiquities Act | 5 701.39  | 6 154.60  |  |  | The first protection afforded this unique region was in 1905 when it was included as a part of the Sevier (now Dixie) National Forest and was administered by the Forest Service of the U.S. Department of Agriculture. The area was established as a National Monument by Presidential proclamation on August 22 1933 and was placed under the administration of the National Park Service of the U.S. Department of the Interior. "WHEREAS it appears desirable in the public interest to exclude certain lands from the Dixie National Forest, Utah, and include said lands within a national monument for the preservation of the spectacular cliff canyons and features of scenic scientific and educational interest contained therein."   |  |  |  |  |
| NPS | Cesar Chavez National Monument                     | California                     | Keene          | 2012 | Antiquities Act | 10.50     | 10.50     |  |  | October 08 2012: The property in Keene, California, known as Nuestra Señora Reina de la Paz (Our Lady Queen of Peace) (La Paz) is recognized for its historic significance to César Estrada Chávez and the farm worker movement. César Chávez is one of the most revered civil rights leaders in the history of the United States. From humble beginnings in Yuma, Arizona, to the founding of the United Farm Workers (UFW) movement, César Chávez knew firsthand the hard work of farm workers in the fields across the United States and their contribution to feeding the Nation. He saw and experienced the difficult conditions and hardships that confronted farm worker families. And through his hard work, perseverance and personal sacrifice, he dedicated his life to the struggle for respect and dignity for the farm workers of America. |  |  |  |  |
| NPS | Chaco Culture National Historical Park             | New Mexico                     | Nageezi        | 1907 | Antiquities Act | 10 643.13 | 32 840.14 |  |  | Established as Chaco Canyon NM in 1907 and redesignated to Chaco Culture NHP in 1980 through 96th Congress. More than 10 000 years of human activity is preserved in Chaco Canyon. The Chaco civilization, which flourished between the 9th and 13th centuries, created remarkable achievements in architecture, designed landscape, art, agriculture, social complexity, economic organization, engineering, and astronomy.   |  |  |  |  |
| NPS | Channel Islands National Park                      | California                     | Ventura        | 1938 | Antiquities Act | 1 119.98  | 79 018.62 |  |  | Re-designated as NP in 1980 through 96th Congress. On April 26 1938, President Franklin D. Roosevelt signed a proclamation designating Anacapa and Santa Barbara Islands as Channel Islands National Monument. The first words of the opening paragraph of the proclamation explained why the land warranted preservation and read "Whereas certain public islands lying off the coast of Southern California contain fossils of Pleistocene elephants and ancient trees and furnish noteworthy examples of ancient volcanism, deposition and active sea erosion and have situated thereon various other objects of geological and scientific interest..."   |  |  |  |  |
| NPS | Charles Young Buffalo Soldiers Monument            | Ohio                           |                | 2013 | Antiquities Act | 59.65     | 59.66     |  |  | Throughout his life, Charles Young overcame countless obstacles in his ascent to prominence. In spite of overt racism and stifling inequality, Young rose through the military ranks to become one of the most respected leaders of his time. A well-rounded man with a steadfast devotion to duty, Young led by example and inspired a generation of new leaders.   |  |  |  |  |
| NPS | Chesapeake and Ohio Canal National Historical Park | Maryland                       | Hagerstown     | 1961 | Antiquities Act | 5 263.94  | 14 465.19 |  |  | Re-designated as NHP in 1971 through 91st Congress. "WHEREAS the Chesapeake and Ohio Canal is of historic and scientific interest, and historic structures and objects of scientific interest are situated upon the lands thereof"   |  |  |  |  |
| Yes | US Forest Service                                  | Chimney Rock National Monument | Colorado       | 2012 | Antiquities Act | 4 726.00  |           |  |  | September 21 2012: The Chimney Rock site in southwestern Colorado incorporates spiritual, historic, and scientific resources of great value and significance. A thousand years ago, the vast Chaco civilization was drawn to the site's soaring massive rock pinnacles, Chimney Rock and Companion Rock, that rise hundreds of feet from the valley floor to an elevation of 7 600 feet. High atop ancient sandstone formations, Ancestral Pueblo People built exquisite stone buildings, including the highest ceremonial "great house" in the Southwest.   |  |  |  |  |
| NPS | Chiricahua National Monument                       | Arizona                        | Wilcox         | 1924 | Antiquities Act | 3 655.12  | 12 022.38 |  |  | Established under USFS and transferred to NPS in 1933. Established to protect "Certain natural formations known as "The Pinnacles" within Coronado National Forest...that are of scientific interest."   |  |  |  |  |
| NPS | Colonial National Historical Park                  | Virginia                       | Jamestown      | 1930 | Congress        |           | 8 605.29  |  |  | Established as Colonial NM and redesignated as Colonial NHP in 1936. Established for the preservation of the historical structures and remains thereof for the benefit and enjoyment of the people.  |  |  |  |  |
| NPS | Colorado National Monument                         | Colorado                       | Fruita         | 1911 | Antiquities Act | 13 883.06 | 20 536.39 |  |  | Whereas in Mesa County, Colorado, the extraordinary examples of erosion are of great scientific interest and it appears that the public interest would be promoted by reserving these natural formations as a National Monument together with as much public land as may be necessary for the proper protection thereof. "President Proclamation "Colorado National Monument Establishment Proclamation 1126 "Statutes at Large (24 May 1911) Vol. 37, p. 156.   |  |  |  |  |
| NPS | Congaree National Park                             | South Carolina                 | Hopkins        | 1976 | Congress        |           | 26 020.66 |  |  | Established as Congaree Swamp National Monument and redesignated a National Park in 2003. "to preserve and protect for the education, inspiration, and enjoyment of present and future generations an outstanding example of a near-virgin, southern hardwood forest situated in the Congaree River floodplain in Richland County, South Carolina."  |  |  |  |  |

| NPS  | Fort Matanzas National Monument                | Florida        | St. Augustine  | 1924 | Antiquities Act | 1.00                  | 298.51                                  |  | Transferred to NPS in 1933. "AND WHEREAS by section 2 of the Act of Congress approved June 8 1906 (34 Stat. 225) the President is authorized "in his discretion to declare by public proclamation historic landmarks, historic and prehistoric structures, and other objects of historic or scientific interest that are situated upon the lands owned or controlled by the Government of the United States to be national monuments... and may reserve as a part thereof parcels of land the limits of which in all cases shall be confined to the smallest area compatible with the proper care and management of the objects to be protected";  |
| November 01 2011: Known first as "The Gibraltar of the Chesapeake" and later as "Freedom's Fortress" Fort Monroe on Old Point Comfort in Virginia has a storied history in the defense of our Nation and the struggle for freedom. Fort Monroe, designed by Simon Bernard and built of stone and brick between 1819 and 1834 in part by enslaved labor, is the largest of the Third System of fortifications in the United States. It has been a bastion of defense of the Chesapeake Bay, a stronghold of the Union Army surrounded by the Confederacy, a place of freedom for the enslaved, and the imprisonment site of Chief Blackhawk and the President of the Confederacy Jefferson Davis. It served as the U.S. Army's Coastal Defense Artillery School during the 19th and 20th centuries, and most recently as headquarters of the U.S. Army's Training and Doctrine Command. |  |                |                |      |                 |                       |   |  |  |
| NPS  | Fort Monroe National Monument                  | Virginia       | Fort Monroe    | 2011 | Antiquities Act | 325.21                | 262.58                                  |  | April 20 2012: In the heart of California's Central Coast, the former Fort Ord encompasses a sweeping landscape of vivid beauty and rich natural diversity. One of the few remaining expanses of large contiguous open space in the increasingly developed Monterey Bay area, this area is a rolling landscape long treasured for recreation, scientific research, outdoor education, and historical significance. Originating in the Pleistocene Epoch, ancient dunes provide the foundation for the landscape's unique array of plant and wildlife communities. The area is also notable for its historical significance, including its role in the Spanish settlement of California and in the military training of generations of American soldiers.   |
| BLM  | Fort Pulaski National Monument                 | Georgia        | Savannah       | 1924 | Antiquities Act | 20.00                 | 5 365.13                                |  | Established under the War Department in 1924 and transferred to NPS in 1933. "WHEREAS there are various military reservations under the control of the Secretary of War which comprise areas of historic and scientific interest;"   |
| NPS  | Fort Stanwix National Monument                 | New York       | Rome           | 1935 | Congress        | 15.52                 |   |  | Authorized in 1935 but established in 1973 after acquisition. "a national monument for the benefit and inspiration of the people." Secretary of the Interior Harold Ickes recommended that the bill be passed noting that the area is "the site of a battle of great importance in American history and is worthy of federal protection..."  |
| NPS  | Fort Sumter National Monument                  | South Carolina | Charleston     | 1948 | Congress        | 230.63                |   |  | Three separate congressional acts contributed to Fort Sumter National Monument as it is known today. Fort Sumter was transferred from the War Department to the National Park Service by joint resolution of Congress on April 28, 1948. In this legislation, Congress established Fort Sumter National Monument, providing that it shall be "a public National Memorial commemorating historical events at or near Fort Sumter." The National Park Service accepted jurisdiction of Fort Moultrie in 1960 under authority of the Historic Sites Act of 1935. Additionally, the property for the tour boat facility at Liberty Square in Charleston was acquired in 1986 in order to provide needed facilities for visitors to Fort Sumter National Monument, including a tour boat dock and associated facilities. Today the boundary of the park encompasses 196.9 acres. The park also holds a scenic easement on 30 acres adjacent to Fort Moultrie.   |
| NPS  | Fort Union National Monument                   | New Mexico     | Watrous        | 1954 | Congress        | 720.60                |   |  | Be it enacted by the Senate and House of Representatives of the United States of America in Congress Assembled That in order to preserve and protect in the public interest the historic Old Fort Union situated in the county of Mora, State of New Mexico, and to provide adequate public access thereto, the Secretary of the Interior is authorized to acquire on behalf of the United States by donation or he may procure with donated funds the site and remaining structures of Old Fort Union together with such additional lands, interests in land, and in improvements thereto as the Secretary in his discretion may deem necessary to carry out the purposes of this Act.  |
| NPS  | Fort Vancouver National Historic Site          | Washington     | Vancouver      | 1948 | Congress        | 197.41                |   |  | Established as NM in 1948 and redesignated a NHS in 1961. Established "for the purpose of establishing a Federal area of national historical importance for the benefit of the people of the United States to be known as the "Fort Vancouver National Monument".  |
| NPS  | Fossil Butte National Monument                 | Wyoming        | Kemmerer       | 1972 | Congress        | 8 198.00              |   |  | That in order to preserve for the benefit and enjoyment of present and future generations outstanding paleontological sites and related geological phenomena, aid to provide for the display and interpretation of scientific specimens.   |
| BLM  | Fossil Cycad National Monument                 | South Dakota   |                | 1922 | Antiquities Act | 320.00                |   |  | Transferred to BLM through the 84th Congress.  |
| NPS  | Freedom Riders National Monument               | Alabama        | Birmingham     | 2017 | Antiquities Act | 5.96                  |   |  | On Mother's Day 1961 a Freedom Riders bus was attacked at the Greyhound Bus Station in Anniston and was attacked again and burned just six miles out of town adjacent to Route 202. The Freedom Riders remained on board the bus at the station in Anniston while a mob struck with bats and pipes and slashed the bus tires. As the bus moved away from the station and out of town, the mob, including members of the Ku Klux Klan, followed. When the bus broke down, the mob resumed terrorizing the Freedom Riders. The bus was firebombed and members of the mob tried holding the doors shut to trap the Freedom Riders inside. Eventually the Freedom Riders were able to make it off the burning bus but continued to be harassed until Alabama State Troopers dispersed the crowd. The Freedom Riders were a group of civil rights activists, both African American and Caucasian, who tested integration laws on the interstate bus system. The incident in Anniston was quickly reported in newspapers and shown on television screens across the country, shocking the nation and inspiring more people to join the fight against the injustices of Jim Crow laws in the American South. The Freedom Riders National Monument includes the former Greyhound Bus Station in Anniston and the bus burning site in Calhoun County six miles out of town. |
| NPS  | Gates of the Arctic National Park and Preserve | Alaska         |                | 1978 | Antiquities Act | 8 220 000.00          | 8 308 013.20                            |  | Redeclared National Park and Preserve in 1980 through 96th Congress. "conserve the scenery and the natural and historic objects and the wild life therein and to provide for enjoyment of the same in such manner and by such means as to leave them unimpaired for the enjoyment of future generations."  |
| NPS  | George Washington Birthplace NM                | Virginia       | Colonial Beach | 1929 | Congress        |                       | 550.32                                  |  | Established by Congress PL 34-71. Established and set apart for the preservation of the historical associations connected therewith, for the benefit and enjoyment of the people.  |
| Bureau of Reclamation (USBR)   | Giant Sequoia National Monument                | California     | Fresno         | 2000 | Antiquities Act | Total Acres - 327 769 | Reclamation Withdrawn Acres - 3 036 (-) |  | Biological, Geological, Prehistoric, Historic resources  |

| NPS     | Gila Cliff Dwellings  | New Mexico | Silver City  | 1907           | Antiquities Act | 160.00       | 533.13       |  | Established as Glacier Bay NM in 1925 and redesignated National Park and Preserve in 1980 through 96th Congress "AND WHEREAS the region is said by the Ecological Society of America to contain a great variety of forest covering consisting of mature areas bodies of youthful trees which have become established since the retreat of the ice which should be preserved in absolutely natural condition and great stretches now bare that will become forested in the course of the next century AND WHEREAS this area presents a unique opportunity for the scientific study of glacial behavior and of resulting movements and development of flora and fauna and of certain valuable relics of ancient interglacial forests AND WHEREAS the area is also of historic interest having been visited by explorers and scientists since the early voyages of Vancouver in 1794 who have left valuable records of such visits and explorations."   |  |
| NPS     | Glacier Bay National Park and Preserve  | Alaska     | Gustavus     | 1925           | Antiquities Act | 1 379 315.58 | 3 280 690.20 |  | Of the 296 937 acres the 11 779 acres currently managed by USBR will be transferred to BLM. Proclamation 2016: "The Secretary of the Interior (Secretary) shall manage the monument pursuant to applicable legal authorities which may include the provisions of section 603 of the Federal Land Policy and Management Act (43 U.S.C. 1782) governing the management of wilderness study areas to protect the objects identified above. Of the approximately 296 937 acres of Federal lands and interests in lands reserved by this proclamation, approximately 285 158 acres are currently managed by the Secretary through the Bureau of Land Management (BLM) and approximately 11 779 are currently managed by the Secretary through the Bureau of Reclamation (BOR). After issuance of this proclamation the Secretary shall, consistent with applicable legal authorities transfer administrative jurisdiction of the BOR lands within the boundaries of the monument to the BLM. The Secretary through the BLM shall manage lands within the monument that are subject to the administrative jurisdiction of the BLM as a unit of the National Landscape Conservation System."  |  |
| BLM     | Gold Butte National Monument  | Nevada     | Las Vegas    | 2016           | Antiquities Act | 296 937.00   |              |  | December 28 2016: In southeast Nevada lies a landscape of contrast and transition where dramatically chiseled red sandstone twisting canyons and tree-clad mountains punctuate flat stretches of the Mojave Desert. This remote and rugged desert landscape is known as Gold Butte. The Gold Butte area contains an extraordinary variety of diverse and irreplaceable scientific, historic and prehistoric resources, including vital plant and wildlife habitat, significant geological formations, rare fossils, important sites from the history of Native Americans and remnants of our Western mining and ranching heritage.   |  |
| NPS     | Governors Island National Monument  | New York   | New York     | 2001           | Antiquities Act | 20.00        | 22.41        |  | Proclamation 7647 February 7, 2003: On the north tip of Governors Island at the confluence of the Hudson and East Rivers stand two fortifications that served as an outpost to protect New York City from sea attack. These two important historic objects, Castle Williams and Fort Jay, are part of a National Historic Landmark District designated in 1985. Between 1806 and 1811 these fortifications were constructed as part of the First and Second American Systems of Coastal Fortification. Castle Williams and Fort Jay represent two of the finest examples of defensive structures in use from the Renaissance to the American Civil War. They also played important roles in the War of 1812, the American Civil War, and World Wars I and II.  |  |
| NPS     | Grand Canyon National Park (Grand Canyon National Monument and Marble Canyon National Monument) | Arizona    | Grand Canyon | 1908/1919/1932 | Antiquities Act | 808 120.00   | 1 180 650.85 |  | Established under USFS, redesignated Grand Canyon NP in 1919 by 65th Congress. Second Grand Canyon Area (273 145 acres) added in 1932 through Antiquities Act. "WHEREAS the Grand Canyon of the Colorado River is an object of unusual scientific interest being the greatest eroded canyon within the United States; and WHEREAS that portion of the canyon which continues down the Colorado River below the Grand Canyon National Park contains much that is most significant and important in this unusual scientific interest; and WHEREAS it appears that the public interest would be promoted by reserving this portion of the Grand Canyon as a national monument with such other land as is necessary for its proper protection." In 1969, Marble Canyon National Monument was established (32 546.69 acres) and then incorporated into Grand Canyon in 1975 through 93rd Congress. "WHEREAS the Marble Canyon of the Colorado River in Arizona a northerly continuation of the world-renowned Grand Canyon possesses unusual geologic and paleontologic features and objects and other scientific and natural values; and WHEREAS it appears that the public interest would be promoted by reserving the federally owned lands encompassing Marble Canyon in order to permanently protect such features and objects | The Grand Canyon National Monument and the Marble Canyon National Monument were added to the Grand Canyon National Park. |
| BLM/NPS | Grand Canyon-Parashant National Monument  | Arizona    | St. George   | 2000           | Antiquities Act | 1 014 000.00 |              |  | January 11, 2000: The Grand Canyon-Parashant National Monument is a vast, biologically diverse, impressive landscape encompassing an array of scientific and historic objects. This remote area of open, undeveloped spaces and engaging scenery is located on the edge of one of the most beautiful places on earth, the Grand Canyon. Despite the hardships created by rugged isolation and the lack of natural waters, the monument has a long and rich human history spanning more than 11,000 years, and an equally rich geologic history spanning almost 2 billion years. Full of natural splendor and a sense of solitude, this area remains remote and unspoiled qualities that are essential to the protection of the scientific and historic resources it contains. The monument is a geological treasure.   |  |
| NPS     | Grand Portage National Monument   | Minnesota  | Portage      | 1951           | Congress        | 709.97       |              |  | Established as a National Historic Site and redesignated a National Monument in 1958. "Whereas the Advisory Board on National Parks, Historic Sites, Buildings, and Monuments has declared that the historic Grand Portage Trail between Lake Superior and the Pigeon River in northern Minnesota is of national significance because of its important association with the fur trade, the exploration and colonization of the Northwest and its location as a historical and geographical link between the United States and Canada"  |  |
| BLM     | Grand Staircase-Escalante   | Utah       | Kanab        | 1996           | Antiquities Act | 1 700 000.00 | 1 866 134.00 |  | Presidential Proclamation 6920 September 18, 1996: The Grand Staircase-Escalante National Monument's vast and austere landscape embraces a spectacular array of scientific and historic resources. This high, rugged, and remote region, where bold plateaus and multi-hued cliffs run for distances that defy human perspective, was the last place in the continental United States to be mapped. Even today, this unspoiled natural area remains a frontier, a quality that greatly enhances the monument's value for scientific study. The monument has a long and dignified human history; it is a place where one can see how nature shapes human endeavors in the American West, where distance and aridity have been pitted against our dreams and courage. The monument presents exemplary opportunities for geologists, paleontologists, archeologists, historians, and biologists. The monument is a geologic treasure of clearly exposed stratigraphy and structures.  |  |

| NPS/Bureau of Reclamation (USBR)  | Grand Teton National Park (Jackson Hole National Monument) | Wyoming                               | Moose       | 1929/1943 | Antiquities Act | 210 950.00 | 307 830.79 |  | Established as Jackson Hole National Monument and redesignated as Grand Teton NP in 1950 through 81st Congress. "WHEREAS the area in the State of Wyoming known as the Jackson Holecountry including that portion thereof which is located in the Teton National Forest contains historic landmarks and other objects of historic and scientific interest that are situated upon lands owned or controlled by the United States; and WHEREAS it appears that the public interest would be promoted by establishing the aforesaid area as a national Monument to be known as the Jackson Hole National Monument."   | Previously National Monument land--now national park. On September 14 1950 the original 1929 Park and the 1943 National Monument (including Rockefeller's donation) were united into a "new" Grand Teton National Park, creating present-day boundaries. Of the total National Park acreage Reclamation total acres is 70 054 |
| Established as Lehman Caves under the USFS. Transferred to NPS in 1933 then incorporated into Great Basin National Park in 1986 through the 99th Congress. Established for the scientific values of the Wheeler Peak-Lehman Caves region of the Snake Range Nevada representative of the numerous Great Basin mountain ranges "WHEREAS certain natural caves known as the Lehman Caves which are situated upon partly surveyed lands within the Nevada National Forest in the State of Nevada are of unusual scientific interest and importance and it appears that the public interests will be promoted by reserving these caves with as much land as may be necessary for the proper protection thereof as a National Monument."   |  |                                       |             |           |                 |            |            |  |  |   |
| NPS   | Great Basin National Park                                  | Nevada                                | Baker       | 1922      | Antiquities Act | 593.03     | 77 180.00  |  | redesignated National Park and Preserve in 2000 through 106th Congress. "WHEREAS it appears that the public interest would be promoted by including the lands hereinafter described within a national -monument for the preservation of the great sand dunes and additional features of scenic scientific and educational interest;"   |   |
| Established as Santa Rosa Island NM and incorporated into Gulf Islands NS in 1946 through 79th Congress. "WHEREAS certain Government-owned lands in the State of Florida have situated therein various objects of geological and scientific interest; and WHEREAS it appears that it would be in the public interest to reserve such lands as a national monument to be known as the Santa Rosa Island National Monument."  |  |                                       |             |           |                 |            |            |  |  |   |
| NPS   | Gulf Islands National Seashore                             | Florida                               | Gulf Breeze | 1939      | Antiquities Act | 9 500.00   | 99 779.27  |  | SEC. 301. (a) In order to preserve for the benefit and enjoyment of present and future generations the outstanding paleontological sites known as the Hagerman Valley fossil sites to provide a center for continuing paleontological research and to provide for the display and interpretation of the scientific specimens uncovered at such sites there is hereby established the Hagerman Fossil Beds National Monument (hereinafter in this title referred to as the "monument").   |   |
| Proclamation 7319 June 9 2000: The Hanford Reach National Monument is a unique and biologically diverse landscape encompassing an array of scientific and historic objects. This magnificent area contains an irreplaceable natural and historic legacy preserved by unusual circumstances. Maintained as a buffer area in a Federal reservation conducting nuclear weapons development and more recently environmental cleanup activities with limits on development and human use for the past 50 years, the monument is now a haven for important and increasingly scarce objects of scientific and historic interest. Bisected by the stunning Hanford Reach of the Columbia River, the monument contains the largest remnant of the shrub-steppe ecosystem that once blanketed the Columbia River Basin. The monument is also one of the few remaining archaeologically rich areas in the western Columbia Plateau containing well-preserved remnants of human history spanning more than 10 000 years. The monument is equally rich in geologic history with dramatic landscapes that reveal the creative forces of tectonic volcanic and erosive power. The monument is a biological treasure. |  |                                       |             |           |                 |            |            |  |  |   |

The area is rich in pumice ash and tuff deposits, the light-colored, cone-shaped tent rock formations that are the products of explosive volcanic eruptions that occurred between 6 and 7 million years ago. Small canyons lead inward from cliff faces, and over time, wind and water have scooped openings of all shapes and sizes in the rocks and have contoured the ends of the ravines and canyons into smooth semicircles. In these canyons, erosion-resistant caprocks protect the softer tents below. While the formations are uniform in shape, they vary in height from a few feet to 90 feet, and the layering of volcanic material intersperses bands of grey with beige-colored rock.   |
| NPS                              | Katahdin Woods and Waters National Monument                      | Maine                              | Patten                         | 2016             | Antiquities Act | 87 563.00       | 87 564.27    |  | Designated by President Obama through the Antiquities Act, the 413th unit of the National Park System comprises 87,500 acres of lands donated to the National Park Service, including the East Branch of the Penobscot River and its tributaries, one of the most pristine watersheds in the Northeast. These lands will remain accessible to current and future generations of Americans, ensuring the rich history of Mainers' hunting, fishing and recreation heritage will forever be preserved. The new National Monument is located adjacent to the 209,644-acre Baxter State Park, the location of Maine's highest peak, Mt. Katahdin (5,267 feet), and the northern terminus of the Appalachian Trail. Redesignated as Katahdin National Park and Preserve in 1980 through 96th Congress. "AND WHEREAS Mount Katahdin, one of the volcanoes in this belt, has proved upon investigation to have unusual size and character, and to be of importance in the study of volcanism, inasmuch as its eruption of June, 1912, was one of excessive violence, ranking in the first order of volcanic explosive eruptions and emitting several cubic miles of material during its first three days of activity." |

| Partially | FWS & NOAA | Marianas Trench Marine National Monument | Pacific Ocean (Northern Marianas) | 2009        | Antiquities Act | 60 938 240.00   |              |           | Proclamation 8335 January 6 2009: Over approximately 480 nautical miles the Mariana Archipelago encompasses the 14 islands of the United States Commonwealth of the Northern Mariana Islands and the United States Territory of Guam that sit atop the Mariana Ridge in an area known as the Mariana Volcanic Arc. The Mariana Volcanic Arc is part of a subduction system in which the Pacific Plate plunges beneath the Philippine Sea Plate and into the Earth's mantle creating the Mariana Trench. Six of the archipelago's islands have been volcanically active in historic times and numerous seamounts along the Mariana Ridge are volcanically or hydrothermally active. The Mariana Trench is approximately 940 nautical miles long and 38 nautical miles wide within the United States Exclusive Economic Zone and contains the deepest known points in the global ocean.<br>To protect and preserve the known volcanic areas of the Mariana Ridge the marine environment around the islands of Farallon de Pajaros, Maug, and Asuncion in the Commonwealth of the Northern Mariana Islands and the Mariana Trench for the care and management of the scientific objects found therein, including waters that are among the most biologically diverse in the Western Pacific and include the greatest diversity of seamount and hydrothermal vent life yet discovered.   | Of the total acreage Bureau of Ocean Energy Management (BOEM) oversees 96 714 acres |
|           |            | Minidoka National Historic Site          | Idaho                             | Hagerman    | 2001            | Antiquities Act | 72.75        | 388.30    | No. 7395 January 17 2001: The Minidoka Internment National Monument is a unique and irreplaceable historical resource which protects historic structures and objects that provide opportunities for public education and interpretation of an important chapter in American history—the internment of Japanese Americans during World War II.<br>On February 19 1942 President Franklin D. Roosevelt signed Executive Order 9066 authorizing the Secretary of War and military commanders to designate military areas from which "any or all persons may be excluded" and to "provide for residents of any such area who are excluded therefrom such transportation, food, shelter, and other accommodations as may be necessary." Starting in early 1942 military authorities began designating military exclusion areas in the States of California, Washington, Oregon, and Arizona and the territory of Alaska. Following the signing of Executive Order 9066 American citizens and residents of Japanese ancestry living in the designated exclusion areas were ordered to evacuate their homes and businesses and report to temporary assembly centers located at fairgrounds, horse racetracks, and other make-shift facilities.<br>To provide more permanent accommodations for the evacuees President Roosevelt established the War Relocation Authority (WRA) in March 1942. The WRA oversaw the construction of ten relocation centers on Federally owned lands in remote areas of six western States and Arkansas, including the Minidoka Relocation Center in Idaho. Alaskan Native residents of the Aleutian and Pribilof Islands and members of other ethnic and religious groups were also relocated or interned during the course of the war. Established in August 1942, the Minidoka Relocation Center, also known as the Hunt Site, was located on Federal lands in Jerome County, in south central Idaho. During its operation from August 1942 to October 1945, the population reached a peak of 9,397 Japanese Americans from Washington State, Oregon, and Alaska. The Center included over 33,000 acres of land with administrative and residential facilities located on approximately 950 acres. The Center had more than 600 buildings including administrative, religious, residential, educational, mess, medical, manufacturing |   |
| NPS       | BLM        | Mojave Trails National Monument          | California                        | Needles     | 2016            | Antiquities Act | 1 600 000.00 |           | February 12 2016: The Mojave Trails area of southern California is a stunning mosaic of rugged mountain ranges, ancient lava flows, and spectacular sand dunes. It is a landscape defined by scarcity and shaped by travel. The area exemplifies the remarkable ecology of the Mojave Desert, where the hearty insistence of life is scratched out from unrelenting heat and dryness. This punishing environment has also forged the unique human history of the area from ancient settlements uprooted by a changing climate to the armies of General George S. Patton Jr. as they trained for battle in North Africa. With historic American trading routes, trails followed by Spanish explorers, a transcontinental rail line, and the Nation's most famous highway, the Mojave Trails area tells the American story of exploration, migration, and commerce. The Mojave Trails area is an invaluable treasure and will continue to serve as an irreplaceable national resource for geologists, ecologists, archaeologists, and historians for generations to come.  |   |

|           |  | Noatak National Preserve                        | Alaska                       | 1978                | Antiquities Act | 5 880 000.00    | 6 549 227.93  |                | Redesignated National Preserve in 1980 through 96th Congress. The Noatak River Basin is the largest mountain-ringed river basin in the Nation still virtually unaffected by technological human activity. The basin has been designated as a Biosphere Reserve under the United Nation's auspices in recognition of its international importance for scientific study and research.<br>The area includes landforms and ecological variations of scientific interest. The Grand Canyon of the Noatak River is a dissected valley 65 miles long. The area contains the northwestern most fringe of boreal forest in North America and is a transition zone and migration route for plants and animals between subarctic and arctic environments. The diversity of the flora is among the greatest anywhere in the earth's northern latitudes.   |   |
| Partially | FWS & NOAA; Bureau of Ocean Energy Management (BOEM) | Northeast Canyons and Seamounts Monument        | Atlantic Ocean/Massachusetts | N/A                 | 2016            | Antiquities Act | 3 144 320.00  |                | September 15 2016: For generations communities and families have relied on the waters of the northwest Atlantic Ocean and have told of their wonders. Throughout New England the maritime trades and especially fishing have supported a vibrant way of life with deep cultural roots and a strong connection to the health of the ocean and the bounty it provides. Over the past several decades the Nation has made great strides in its stewardship of the ocean but the ocean faces new threats from varied uses climate change and related impacts. Through exploration we continue to make new discoveries and improve our understanding of ocean ecosystems. In these waters the Atlantic Ocean meets the continental shelf in a region of great abundance and diversity as well as stark geological relief. The waters are home to many species of deep-sea corals fish whales and other marine mammals. Three submarine canyons and beyond them four undersea mountains lie in the waters approximately 130 miles southeast of Cape Cod. This area (the canyon and seamount area) includes unique ecological resources that have long been the subject of scientific interest. The canyons start at the edge of the geological continental shelf and drop from 200 meters to thousands of meters deep. The seamounts are farther off shore at the start of the New England Seamount chain rising thousands of meters from the ocean floor. These canyons and seamounts are home to at least 54 species of deep-sea corals which live at depths of at least 3 900 meters below the sea surface. The corals together with other structure-forming fauna such as sponges and anemones create a foundation for vibrant deep-sea ecosystems providing food spawning habitat and shelter for an array of fish and invertebrate species. | (Proclamation 9496)<br>Of the total acres BOEM manages 4 913 acres.                   |

| Abolished |  | Old Kasaan National Monument                    | Alaska                       | 1916                | Antiquities Act |                 |               |                | Abolished by Congress in 1955.  |   |
|           | S  | Olympic National Park                           | Washington                   | Los Angeles         | 1909            | Antiquities Act | 639 200.00    | 913 547.00     | Established under USFS ad Mount Olympus NM. Transferred to NPS in 1933 and redesignated Olympic National Park in 1938 through 75th Congress. WHEREAS the slopes of Mount Olympus and the adjacent summits of the Olympic Mountains in the State of Washington within the Olympic National Forest embrace certain objects of unusual scientific interest including numerous glaciers and the region which from time immemorial has formed the summer range and breeding grounds of the Olympic Elk (Cervus roosevelti) a species peculiar to these mountains and rapidly decreasing in numbers;  |   |
|           | NPS  | Oregon Caves National Monument                  | Oregon                       | Cave Junction       | 1909            | Antiquities Act | 465.80        | 4 554.03       | Established under USFS. Transferred to NPS in 1933 and redesignated at Oregon Caves National Monument and Preserve in 2014 through 113th Congress. "WHEREAS certain natural caves known as the Oregon Caves which are situated upon unsurveyed land within the Siskiyou National Forest in the State of Oregon are of unusual scientific interest and importance and it appears that the public interests will be promoted by reserving these caves with as much land as may be necessary for the proper protection thereof as a National Monument."  |   |
|           | BLM  | Organ Mountains-Desert Peaks National Monument  | New Mexico                   | Las Cruces          | 2014            | Antiquities Act | 496 330.00    |                | May 21 2014: In southern New Mexico surrounding the city of Las Cruces in the Rio Grande's fertile Mesilla Valley five iconic mountain ranges rise above Chihuahuan Desert grasslands: the Robledo Sierra de las Uvas Doña Ana Organ and Potrillo Mountains. These mountain ranges and lowlands form the Organ Mountains-Desert Peaks area. The Organ Mountains-Desert Peaks area is important for its ruggedly beautiful landscape and the significant scientific historic and prehistoric resources found there. The abundant resources testify to over 10 000 years of vibrant and diverse human history of many peoples. Objects left behind by this multi-layered history and spread throughout this geologically and ecologically diverse landscape enhance the experience of visitors to the area and represent a vital resource for paleontologists archaeologists geologists biologists and historians.<br>Whereas certain public lands in the State of Arizona contain historic landmarks and have situated thereon various objects of historic and scientific interest; and Whereas it appears that it would be in the public interest to reserve such lands as a national monument to be known as the Organ Pipe Cactus National Monument: Proclamation 2232—April 13 1937  |   |
|           | NPS  | Organ Pipe Cactus National Monument             | Arizona                      | Ajo                 | 1937            | Antiquities Act | 330 690.00    | 329 365.29     | Through Proclamation 8336 of January 6 2009 the President established the Pacific Remote Islands Marine National Monument to protect and preserve the marine environment around Wake Baker Howland and Jarvis Islands Johnston and Palmyra Atolls and Kingman Reef for the care and management of the historic and scientific objects therein. The Monument is an important part of the most widespread collection of marine and terrestrial-life protected areas on the planet sustaining many endemic species including corals fish shelffish marine mammals seabirds water birds land birds insects and vegetation not found elsewhere. The Monument includes the lands waters and submerged and emergent lands of the seven Pacific Remote Islands to lines of latitude and longitude that lie approximately 50 nautical miles from the mean low water lines of those seven Pacific Remote Islands. The islands of Jarvis Howland and Baker were also the location of notable bravery and sacrifice by a small number of voluntary Hawaiian colonists known as Hui Panalā'au who occupied the islands from 1935 to 1942 to help secure the U.S. territorial claim over the islands.   | (Proclamations 8336 9173)<br>Of the total amount of acres BOEM manages 370 000 acres. |

| Yes | US Forest Service | Part of Sequoia National Forest - Giant Sequoia National Monument  | California | 2000                               | Antiquities Act | 327 769.00      |              |            | Proclamation 7295 April 15 2000: The rich and varied landscape of the Giant Sequoia National Monument holds a diverse array of scientific and historic resources. Magnificent groves of towering giant sequoias, the world's largest trees, are interspersed within a great belt of coniferous forest, jeweled with mountain meadows. Bold granitic domes, spires, and plunging gorges texture the landscape. The area's elevation climbs from about 2 500 to 9 700 feet over a distance of only a few miles, capturing an extraordinary number of habitats within a relatively small area. This spectrum of ecosystems is home to a diverse array of plants and animals, many of which are rare or endemic to the southern Sierra Nevada. The monument embraces limestone caverns and holds unique paleontological resources documenting tens of thousands of years of ecosystem change. The monument also has many archaeological sites recording Native American occupation and adaptations to this complex landscape, and historic remnants of early Euroamerican settlement as well as the commercial exploitation of the giant sequoias. The monument provides exemplary opportunities for biologists, geologists, paleontologists, archaeologists, and historians to study these objects.  |  |
| Yes | US Forest Service | Part of Tongass National Forest                                    | Alaska     | 1916                               | Antiquities Act | 43.00           |              |            | Established under the USFS as Old Kasaan NM. Transferred to the NPS in 1933 then transferred back to the USFS in 1955.  |  |
| Yes | US Forest Service | Part of Tongass National Forest                                    | Alaska     | Admiralty Island National Monument | 1978            | Antiquities Act | 1 100 000.00 |            | Proclamation 4611 December 1 1978: Admiralty Island is outstanding for its superlative combination of scientific and historic objects. Admiralty Island contains unique resources of scientific interest which need protection to assure continued opportunities for study. Admiralty Island has been continuously inhabited by Tlingit Indians for approximately 10 000 years. Archeological sites and objects are plentiful in the areas of Angoon, Chalik Bay, Whitewater Bay and other bays and inlets on the island. These resources provide historical documentation of continuing value for study. The continued presence of these natives on the island add to the scientific and historical value of the area. The cultural history of the Tlingit Indians is rich in ceremony and creative arts and complex in its social, legal and political systems. Admiralty provides a unique combination of archeological and historical resources in a relatively unspoiled natural ecosystem that enhances their value for scientific study. Subsequent to exploration and mapping by Captain George Vancouver at the end of the 18th century, Russian fur traders, Yankee whalers and miners and prospectors have left objects and sites on Admiralty which provide valuable historical documentation of white settlement and exploitation of the island and its resources. Admiralty Island is rich in historic structures and sites including whaling stations, cannerys, old mining structures and old village sites, for example, Kiksikoo Village where a whaling and herring saltery station were established in 1880. Unusual aspects of the island ecology include its exceptional distribution of animal species, including dense populations of brown bears and eagles, because of the island's separation from the mainland. This peculiar distribution enhances the island's value for scientific study. The unique island ecology includes the highest known density of nesting bald eagles (more than are found in all the other States combined); large numbers of Alaska brown bear; and the largest unspoiled coastal island ecosystem in North America. Admiralty Island was added to the Tongass National Forest in 1909 and specific portions of the island have been designated as bear and eagle management areas and numerous scientific studies of the bear and eagle habitat have been conducted by scientists from around the world. The island is an outdoor living laboratory for the study of the bald eagle and Alaska brown bear. Protection of the entire island, exclusive of the Mansfield Peninsula, is necessary to preserve intact the unique scientific and historic objects and sites located there.   |  |
| Yes | US Forest Service | Part of Tongass National Forest                                    | Alaska     | Misty Fjords National              | 1978            | Antiquities Act | 2 285 000.00 |            | scientific and historical features unique in North America. It is an essentially untouched two million-acre area in the Coast Mountains of Southeast Alaska within which are found nearly all of the important geological and ecological characteristics of the region, including the complete range of coastal to interior climates and ecosystems in a remarkably compact area. Among the objects of geologic importance are extraordinarily deep and long fjords with sea cliffs rising thousands of feet. Active glaciers along the Canadian border are remnants of the massive ice bodies that covered the region as recently as about 10 000 years ago, at the end of the Pleistocene epoch. However, there have been periodic glacial advances and retreats in more recent historic periods. Some of the area has been free from glaciation for only a short period of time, creating the unusual scientific phenomenon of recent plant succession on newly exposed land with accompanying animal species. The Behm Canal, the major inlet at the heart of the area, is more than fifty miles long and extraordinary among natural canals for its length and depth. The watershed of the Unal River, which comprises the northern portion of the Misty Fjords area, has its headwaters in Canada. It is steeply mountainous and glaciated and contains the full range of ecosystems and climates from interior to coastal. Mineral springs and lava flows add to the uniqueness of the area and its value for scientific investigation. South of the Unal, the Chilkat River System and the Le Duc River originate in active glaciers and terminate in Behm Canal. Further south, Rudyerd Bay Fjords and Walker Cove are surrounded by high, cold lakes and mountains extending eastward to Canada. First inhabitants of Misty Fjords may have settled in the area as long ago as 10 000 years. The area contains cultural sites and objects of historical significance, including traditional native hunting and fishing grounds. Later historical evidence includes a mid-1800's military post-port entry on Tongass Island and a salmon cannery in Behm Canal established in the late 1800's. Misty Fjords is unique in that the area includes wildlife representative of nearly every ecosystem in Southeast Alaska, most notably bald eagles, brown and black bears, moose, wolves, mountain goats and Sitka black-tailed deer. Numerous other bird species nest and feed in the area, notably falcons and waterfowl. Misty Fjords is a major producer of all species of Pacific salmon and is especially important for king salmon. Numerous other saltwater, freshwater and anadromous fish species and shellfish are plentiful in this area, which is an extraordinarily fertile interface of marine and freshwater environments. Unusual plant life includes Pacific silver and subalpine fir trees near the northern limit of their range. The area includes an unusual variety of virgin forests, ranging from coastal spruce-hemlock to alpine forests. As an intact coastal ecosystem, Misty Fjords possesses a collective array of objects of outstanding value for continuing scientific study. |  |

| BLM  | Pompeys Pillar   | Montana        | Billings        | 2001 | Antiquities Act | 51.00      |           |        | January 17 2001: Pompeys Pillar National Monument is a massive sandstone outcrop that rises from an almost two-acre base on the banks of the Yellowstone River 150 feet toward Montana's Big Sky east of Billings. The monument's premier location at a natural ford in the Yellowstone River and its geologic distinction as the only major sandstone formation in the area have made Pompeys Pillar a celebrated landmark and outstanding observation point for more than eleven thousand years of human occupation. Hundreds of markings, petroglyphs and inscriptions left by visitors have transformed this geologic phenomenon into a living journal of the American West. |  |

It is estimated that President Lincoln spent one quarter of his presidency at this home riding out to it many evenings from late June until early November. This house and its grounds are objects of great historic significance and interest. It was here in September of 1862 that President Lincoln completed the drafting of the Emancipation Proclamation.            |  |

| The Reconstruction Era began during the Civil War and lasted until the dawn of Jim Crow racial segregation in the 1890s. It remains one of the most complicated and poorly understood periods in American History. During Reconstruction four million African Americans newly freed from bondage sought to integrate themselves into free society into the educational, economic, and political life of the country. This began in late 1861 in Beaufort County S.C. after Union forces won the Battle at Port Royal Sound and brought the 'Lowcountry' along the South Carolina coast under Union control. More than 10,000 slaves remained there when their owners fled the cotton and rice plantations. The then-Lincoln Administration decided to initiate the 'Port Royal Experiment' in Beaufort County to help the former slaves become self-sufficient. The Reconstruction Era National Monument includes four sites in Beaufort County: Darragh Hall and Brick Baptist Church within Penn School National Historic Landmark District on St. Helena Island that includes the site of one of the country's first schools for freed slaves and a church built by slaves for their owners in 1855 and then turned over to the former slaves in 1862 when their owners left the area; The Camp Saxon Site on U.S. Navy property in Port Royal where some of the first African Americans joined the U.S. Army and the site where elaborate ceremonies were held on New Year's Day 1863 to announce and celebrate the issuance of the Emancipation Proclamation; and The Old Beaufort Firehouse an historic building located in the midst of historic downtown Beaufort within walking distance of dozens more historic Reconstruction properties. |  |                |                 |      |                 |            |           |        |  |  |

|           | NPS   | Scotts Bluff National Monument          | Nebraska   | Gering        | 1919      | Antiquities Act | 2 053.83   | 2 954.21 | Scotts Bluff is an important 19th century geologic formation and landmark on the Oregon Trail and Mormon Trail. It contains multiple bluffs on the south side of the North Platte River but it is named after a prominent bluff called Scotts Bluff which rises more than 830 feet above the plains at its highest point. The monument is composed of five rock formations named Crown Rock Dome Rock Eagle Rock Saddle Rock and Sentinel Rock. "WHEREAS Scotts Bluff is the highest known point within the State of Nebraska affording a view for miles over the surrounding country; WHEREAS Mitchell Pass lying to the south of said bluff was traversed by the old Oregon Trail and said bluff was used as a landmark and rendezvous by thousands of immigrants and frontiersmen travelling said trail en route to new homes in the Northwest; and WHEREAS in view of these facts as well as of the scientific interest the region possesses from a geological standpoint it appears that the public interests will be promoted by reserving the lands upon which the said bluff and the said pass are located as a national monument. |  |

Transferred to NPS in 1933 and redesignated Statue of Liberty NM in 1965. "AND WHEREAS by section 2 of the Act of Congress approved June 8 1906 (34 Stat. 225) the President is authorized "in his discretion to declare by public proclamation historic landmarks, historic and prehistoric structures and other objects of historic or scientific interest that are situated upon the lands owned or controlled by the Government of the United States to be national monuments and may reserve as a part thereof parcels of land the limits of which in all cases shall be confined to the smallest area comp"   |  |
|           | NPS   | Stonewall National Monument             | New York   | New York      | 2016      | Antiquities Act | 0.12       |          | Stonewall National Monument serves as the first national monument that honors the history of the Lesbian Gay Bisexual and Transgender (LGBT) community in the United States. The site played a pivotal role in the nation's LGBT civil rights movement. The new monument is located at Christopher Park a historic community park at the intersection of Christopher Street West 4th Street and Grove Street directly across from the Stonewall Inn in Manhattan's Greenwich Village. The monument's boundary encompasses approximately 7.7 acres of land including Christopher Park the Stonewall Inn and the surrounding streets and sidewalks that were the site of the 1969 Stonewall Uprising an event that inspired the modern LGBT civil rights movement.   |  |
|           | NPS   | Sunset Crater Volcano National Monument | Arizona    | Flagstaff     | 1930      | Antiquities Act | 3 040.00   |          | Established under USFS transferred to NPS and redesignated in 1990 through 101st Congress. Established by presidential proclamation in 1930 Sunset Crater Volcano National Monument protects 3 040 acres representing the Colorado Plateau's most recent volcanic eruption. It is the youngest least-eroded cinder cone in the San Francisco Volcanic Field and represents the only series of eruptions in the Southwest indisputably witnessed by local peoples.  |  |
|           | NPS   | Timpanogos Cave National Monument       | Utah       | American Fork | 1922      | Antiquities Act | 250.00     |          | Established under USFS and transferred to NPS in 1933. The Timpanogos cave system is in the Wasatch Range in the American Fork Canyon. Three main chambers are accessible: Hansen Cave Middle Cave and Timpanogos Cave. Many colorful cave features or speleothems can be seen including helictites cave bacon cave column flowstone cave popcorn and cave drapery. Set aside because it is of unusual scientific interest and importance. "WHEREAS a natural cave known as the Timpanogos Cave which is situated upon unsurveyed lands within the Wasatch National Forest in the State of Utah is of unusual scientific interest and importance and it appears that the public interests will be promoted by reserving this cave with as much land as may be necessary for the proper protection thereof as a National Monument."   |  |

| BLM | Upper Missouri River Breaks National Monument | Montana        |              | 2001 | Antiquities Act | 377 346.00 |           | Proclamation 7398 January 17 2001: The Upper Missouri River Breaks National Monument contains a spectacular array of biological geological and historical objects of interest. From Fort Benton upstream into the Charles M. Russell National Wildlife Refuge the monument spans 149 miles of the Upper Missouri River the adjacent Breaks country and portions of Arrow Creek Antelope Creek and the Judith River. The area has remained largely unchanged in the nearly 200 years since Meriwether Lewis and William Clark traveled through it on their epic journey. In 1978 the Congress designated the Missouri River segment and corridor in this area a National Wild and Scenic River (Public Law 94-486 90 Stat. 2327). The monument also encompasses segments of the Lewis and Clark National Historic Trail the Nez Perce National Historic Trail and the Cow Creek Island Area of Critical Environmental Concern.   |  |  |
| BLM | Vermilion Cliffs National Monument            | Arizona        | St. George   | 2000 | Antiquities Act | 279 568.00 |           | November 9 2000: Amid the sandstone slickrock brilliant cliffs and rolling sandy plateaus of the Vermilion Cliffs National Monument lie outstanding objects of scientific and historic interest. Despite its arid climate and rugged isolation the monument contains a wide variety of biological objects and has a long and rich human history. Full of natural splendor and a sense of solitude this area remains remote and unspoiled qualities that are essential to the protection of the scientific and historic objects it contains. The monument is a geological treasure.  |  |  |
| NPS | Virgin Islands Coral Reef National Monument   | Virgin Islands | St. John     | 2001 | Antiquities Act | 12 708.00  | 11 608.48 | January 17 2001: The Virgin Islands Coral Reef National Monument in the submerged lands off the island of St. John in the U.S. Virgin Islands contains all the elements of a Caribbean tropical marine ecosystem. This designation furthers the protection of the scientific objects included in the Virgin Islands National Park created in 1956 and expanded in 1962. The biological communities of the monument live in a fragile interdependent relationship and include habitats essential for sustaining and enhancing the tropical marine ecosystem: mangroves sea grass beds coral reefs octocoral hardbottom sand communities shallow mud and fine sediment habitat and algal plains. The fishery habitats deeper coral reefs octocoral hardbottom and algal plains of the monument are all objects of scientific interest and essential to the long-term sustenance of the tropical marine ecosystem.   |  |  |
| NPS | Waco Mammoth National Monument                | Texas          | Waco         | 2015 | Antiquities Act | 7.11       |           | July 10 2015: In 1978 two young fossil hunters found a large bone protruding from an eroded ravine near the Bosque River about 4.5 miles north of the center of Waco Texas. They took the bone to nearby Baylor University where it was identified as part of the femur (upper leg bone) of a Columbian Mammoth ( <i>Mammuthus columbi</i> ) a dominant species in North America during the Pleistocene Epoch. The Columbian Mammoth the largest of all mammoth species stood with a shoulder height reaching 12 to 14 feet and weighed an estimated 7 to 8 tons. Over the next 20 years Baylor University oversaw the excavation of the site where the remains of 24 Columbian Mammoths were found along with the remains of associated animals of the late Pleistocene including Western Camel ( <i>Camelops hesternus</i> ) saber-toothed cat ( <i>Homotherium</i> ) dwarf antelope (cf. <i>Capromeryx</i> ) American Alligator ( <i>Alligator mississippiensis</i> ) and giant tortoise ( <i>Hesperotestudo</i> ). These remains contain the Nation's only recorded discovery of a nursery herd (females and offspring) of Pleistocene mammoths comprising at least 18 of the unearthed mammoths. |  |  |
| NPS | Walnut Canyon National Monument               | Arizona        | Flagstaff    | 1915 | Antiquities Act | 960.00     | 3 251.42  | Established under USFS. Transferred to NPS in 1933. "WHEREAS certain prehistoric ruins of ancient cliff dwellings situated upon public lands of the United States and located in what is commonly known as Walnut Canyon about eight miles south-east of the city of Flagstaff Arizona are of great ethnologic scientific and educational interest and it appears that the public interests would be promoted by reserving these relics of a vanished people with as much land as may be necessary for the proper protection thereof as a National Monument."   |  |  |

|     |                   |   |                   |               |      |                 |               |              |  |  |                     |

| Yes | US Forest Service | Wheeler National Monument                           | Colorado          |               | 1908 | Antiquities Act |               |              |  | Part of Rio Grande National Forest. Established in USFS and then transferred to Rio Grande NF in 1950 through 81st Congress. "WHEREAS certain volcanic formations in the State of Colorado within the Rio Grande and Cochetopa National Forests are of unusual scientific interest as illustrating erratic erosion and it appears that the public interests would be promoted by reserving said formations as a National Monument."  |                     |
|     | NPS               | White Sands National Monument                       | New Mexico        | Alamogordo    | 1933 | Antiquities Act | 131 486.84    | 143 733.25   |  | Established "for the preservation of the white sands and additional features of scenic scientific and educational interest"  |                     |
|     | NPS               | Whitman Mission National Historic Site              | Washington        | Walla Walla   | 1936 | Congress        |               | 138.53       |  | Authorized in 1936 redesignated a National Historic Site in 1963. Whitman Mission National Historic Site is a United States National Historic Site located just west of Walla Walla Washington at the site of the former Whitman Mission at Wailatpu.  |                     |
|     | FWS               | World War II Valor in the Pacific National Monument | Alaska California | CA            | 2008 | Antiquities Act | 6 304.00      |              |  | To preserve interpret and enhance the public's understanding and appreciation of the national monument and the broader story of World War II in the Pacific.   | (Proclamation 8327) |
|     | NPS & FWS         | World War II Valor in the Pacific National Monument | Hawaii            | Honolulu      | 2008 | Antiquities Act | 4 038 400.00  | 56.66        |  | December 5 2008: President Bush signed the Presidential Proclamation Designating the World War II Valor in the Pacific National Monument. The sites in this area include: Five of those sites are in the Pearl Harbor area which is the home of both the USS Arizona and the USS Missouri - milestones of the Pacific campaign that mark the beginning and the end of the war. The USS Arizona Memorial and Visitor Center, the USS Utah Memorial, the USS Oklahoma Memorial, the six Chief Petty Officer Bungalows on Ford Island and mooring quays F6 F7 and F8 which constituted part of Battleship Row. Three sites are located in Alaska's Aleutian Islands. The first is the crash site of a Consolidated B-24D Liberator bomber - an aircraft of a type that played a highly significant role in World War II - located on Atka Island. The second is the site of Imperial Japan's occupation of Kiska Island beginning in June 1942 which marks the northern limit of Imperial Japan's expansion in the Pacific. The third Aleutian designation is on Attu Island the site of the only land battle fought in North America during World War II. The last of the nine designations will bring increased understanding of the high price paid by some Americans on the home front. The Tule Lake Segregation Center National Historic Landmark and nearby Camp Tule Lake in California were both used to house Japanese-Americans relocated from the west coast of the United States.  | 6 310 sq. miles     |
|     | NPS               | Wrangell-St. Elias National Park and Preserve       | Alaska            | Copper Center | 1978 | Antiquities Act | 12 279 796.88 |              |  | to the International Boundary with Canada contains a variety of landforms including high mountain peaks and steep canyons with associated geological ecological and historical phenomena of great importance. The area includes the greatest assemblage of mountain peaks over 14 500 feet in elevation found in the Nation the nation's second highest mountain (Mount St. Elias at 18 008 feet) several inactive and one active volcano (Mount Wrangell) and an active glacial complex including some of the largest and longest glaciers in the Nation. The high mountain peaks and glaciers offer an excellent opportunity for glaciological studies. The Malaspina Glacier is listed on the National Registry of Natural Landmarks. Thermal features in the area include the mud cones and hot springs on the western base of Mount Drum. More complete undeveloped river systems exist here than in any other land area in the Nation with more than 1 000 miles of powerfully running silt-laden rivers. Biologically unique subspecies of flora and fauna have developed in the Bremner and Chitina River Valleys. As a result of their isolation by virtue of ice fields and the Copper River these areas are virtually ecological islands in which development of subspecies is largely unaffected by interchange with outside plant and animal species. Wildlife populations include the largest population of wild mountain sheep in North America moose mountain goat and a non-migratory population of caribou. The area is the only part of Alaska where four of the five identifiable forms of bear occur including the interior grizzly the coastal brown bear the black bear and the rare blue-color phase of the black bear called glacier bear. Along the coast of the Gulf of Alaska bald eagles and a large and varied shorebird population occur. Cultural development within the area is of interest to archeologists and historians. Three major culture areas converge here each with distinctive cultural patterns: the North Athabascans the Pacific Eskimo and the Chugach. Mining history is evidenced by the Kennebott Copper Works a National Historic Landmark. The land withdrawn and reserved by this Proclamation for the protection of the geological archeological biological and other phenomena enumerated above supports now as it has in the past a unique subsistence culture of the local residents. The continued existence of this culture which depends on subsistence hunting and its availability for study enhances the historic and scientific values of the natural objects protected herein because of the ongoing interaction of the subsistence culture with those objects. Accordingly the opportunity for local residents to engage in subsistence hunting is a value to be protected and will continue under the administration of the monument. |                     |
|     | NPS               | Wupatki National Monument                           | Arizona           | Flagstaff     | 1924 | Antiquities Act | 2 234.10      | 35 422.13    |  | Whereas there are located in Arizona about 30 miles northeast of Flagstaff two groups of prehistoric ruins built by the ancestors of the most picturesque tribe of Indians still surviving in the United States the Hopi or People of Peace;   |                     |
|     | NPS               | Yucca House National Monument                       | Colorado          | Cortez        | 1919 | Antiquities Act | 9.60          | 33.87        |  | Designated a research national monument it is a large unexcavated ancestral Puebloan archeological site. The site is one of many Anasazi (Ancestral Pueblo) village sites located in the Montezuma Valley occupied between AD 900 and 1300. "WHEREAS there is in Montezuma County Colorado on the eastern slope of the Sleeping Ute Mountain an imposing pile of masonry of great archaeological value relic of the prehistoric inhabitants of that part of the country; and WHEREAS the ground on which said structure stands has been donated to the United States for the establishment of a national monument with a view to the preservation of said ruins and such preservation is deemed to be in the public interest."   |                     |
|     | FWS               | Yukon Flats National Wildlife Refuge                | Alaska            |               | 1978 | Antiquities Act |               |              |  | Redeesignated National Preserve in 1980 through 96th Congress. " The Yukon-Charley National Monument an area in east-central Alaska includes a combination of historic and scientific features of great significance. The Upper Yukon River basin contains historic remains of early mining activity and includes outstanding paleontological resources and ecologically diverse natural resources offering many opportunities for scientific and historic study and research."  |                     |
